Reading Group in Macroeconometrics

Academic year 2026-27 –First/Second/Third Term

Alessio Volpicella, University of Pavia
Office: Room 14, first floor, Via San Felice al Monastero 5, Pavia
Tel: +39 0382986203
E-mail: alessio.volpicella@unipv.it

Office hours: by appointment

Course description: in this module, students choose a topic of interest and present their own research and papers in the relevant literature. Audience and instructor will provide feedback. Topics are flexible and mostly depend on students' preferences, including -but not limited to - theoretical and applied/empirical macroeconomics, econometrics, time series analysis, Bayesian statistics and financial econometrics.

Learning objectives: the goal is to develop i) presentation skills and ii) knowledge of the relevant literature and contributions.

Learning outcomes: at the end of this module, the students will be able to master an academic presentation and will improve knowledge of the literature of interest.

Course prerequisites: 1-st year PhD modules

Course organization: 20 hours of lectures

Course assessment: attendance and presentations
